

INTRODUCING THE REACHER GRILLES

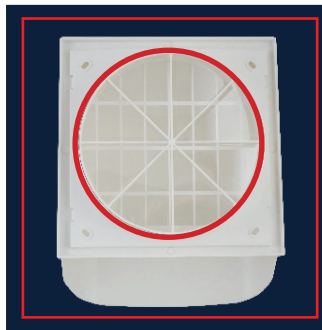

Reacher Cowl Grille

UV Stable

Holds uniformity and colour when exposed to UV.

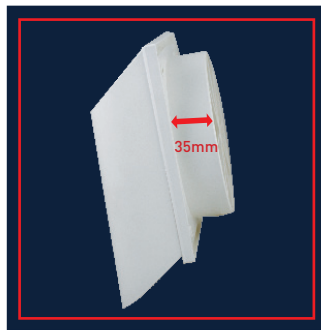

Unique design aesthetic, modern finish that is registered with IPONZ.

Silent back-draught shutter

No flapping noises to bother the end user.

Allows free-flow air out, but stops draughts coming back in.

Suits different installations

Reduced spigot length for back-to-back installation with a through wall fan.

Square base allows for accurate scribing on weatherboard, linear and rough wall surfaces.

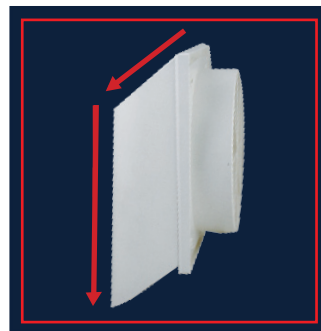

Single, slotted orientation base

Angle slotted mounting positions allow the product to be rotated slightly before final tightening to ensure a straight square finish.

Bird Prevention

Designed to prevent bird ingress into cowl.

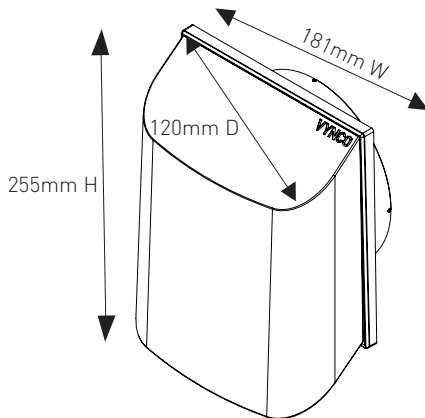

Cowl Shape

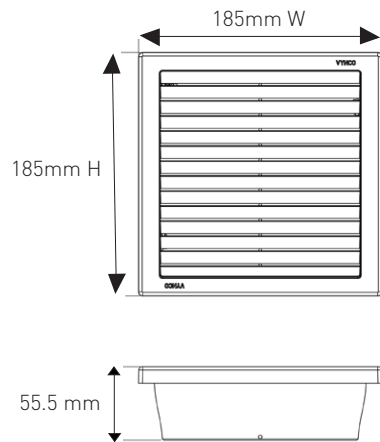

Base and cowl combine to create positive water run-off angles ensuring water is expelled from the open areas and will not pool.

DIMENSIONS

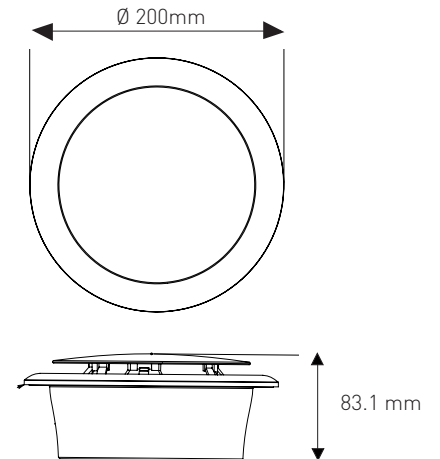

Cowl Grille

Fixed Square Grille

Round Grille

REACHER COWL GRILLE

Code	Colour	Duct Size	Grille Type
